Ispravka

Proizvodnja vodonika gasifikacijom biomase, Zastita Materijala 58 (2), 228 – 234 (2017), doi:10.5937/ZasMat1702228J

Milovan Jotanović, Vladan Mičić*, Stefan Pavlović
Univerzitet u Istočnom Sarajevu, Tehnološki fakultet Zvornik, Zvornik, BiH

U ovom radu su uočene dve greške u tekstu objavljenog rada.

1. Prva greška se odnosi na zamenu reference broj 3 koja je pogrešno bila upisana od strane autora:

Prethodna referenca:

[3] D.E.Cole (2007) Issues facing the Auto industry: Alternative Fuels, Technologies and Policies ACP Meeting Eagle Crest Conference Center, 20, p.2007.

Nova referenca:

[3] M.Martin, I.E.grosman (2010) Energy optimization of hydrogen production from biomass, Computers and chemical engineering, 35(9), 1798-1806.

2. Druga greška je pogrešna kategorizacija rad.

Stoji: Naučni rad

Treba da bude: Pregledni rad.

Ova greška je nastala u toku tehničke pripreme rada za objavljivanje i primećena je od strane autora.

Uredništvo časopisa se zahvaljuje autorima na uočenim greškama u radu.

Correction

Hydrogen production by biomass gasification, Zastita Materijala 58 (2), 228 – 234 (2017), doi:10.5937/ZasMat1702228J

Milovan Jotanović, Vladan Mičić*, Stefan Pavlović
Univerzitet u Istočnom Sarajevu, Tehnološki fakultet Zvornik, Zvornik, BiH

Two errors were noted in the text of the published paper.

1. The first error relates to the replacement of reference number 3 which was incorrectly typed by the authors:

Previous Reference:

[3] D.E.Cole (2007) Issues facing the Auto industry: Alternative Fuels, Technologies and Policies ACP Meeting Eagle Crest Conference Center, 20, p.2007.

New Reference:

[3] M.Martin, I.E.grosman (2010) Energy optimization of hydrogen production from biomass, Computers and chemical engineering, 35(9), 1798-1806.

2. The second error is the wrong categorization of the paper.

It says: Scientific paper

It should be: Review paper.

This error occurred during the technical preparation of publication paper and was noticed by the authors.

The editorial staff of the journal thanks the authors on the observed mistakes in their paper.
